

Release Notes for DrChrono Mobile Version 11.0.109

Last modified on 11/06/2024 1:35 pm EST

Resolutions

Summary	Description
EHR app crashes on iPadOS version 15.8	We fixed an issue where the EHR app crashed on iPadOS version 15.8. The EHR app now functions as expected.
Unable to start video visit on EHR app version 11.0.108	We fixed an issue where you could not start a video visit on EHR app version 11.0.108. You are now able to start a video visit.
Supply Medication Type Improvements	We fixed an issue where when you selected Replace with New eRx for a renewal request, changed the type to Compound Medication , and then changed the type to Supply Medication , the type did not change to supply medication. When you select Supply Medication for the medication type, the type now changes to supply medication.
Missing Plus Icon on the EHR iPhone App	We fixed an issue where the plus icon  was missing on the EHR iPhone app. The plus icon  now appears on the EHR iPhone app.
