

Add Patient Preferred Pharmacies in DrChrono

Last modified on 12/16/2024 9:37 am EST

In DrChrono, you can add a patient's preferred pharmacy in their patient chart in Demographics. This is the default pharmacy for eRx.

Add a preferred pharmacy

1. In the patient chart, select **Demographics**.
2. Under Miscellaneous > Patient Preferred Pharmacies, select + Pharmacy.
3. Add To Patient Preferred Pharmacies pop-out window will appear
4. Search for and select the pharmacy.

Add To Patient Preferred Pharmacies

Name / Location / Phone / NCPDP ID

Mail

Retail

Other

Any distance

5. Select Add & Set as Default or Add

The pharmacy will appear on the patient's preferred pharmacy list. Users can select one pharmacy from this list to set as the default. The default pharmacy is configured individually for each patient.

Under the action column choose Set as Default or use the red trash icon to delete.

Patient Preferred Pharmacies	Pharmacy Name	Address	Phone Number	Fax Number	Type	Action
+ Pharmacy		000 Pending Response Way Arlington VA 22201	7035550195	7032051235	RETAIL SPECIALTY TWENTY_FOUR_HOUR_STORE	Set as Default
	Lane-Wooster Pharmacy	989 Vernon Odom Blvd Akron OH 44307	2342574471	2344558422	RETAIL LONG_TERM_CARE SUPPORTS_DIGITAL_SIGNATURE	Set as Default

In OnPatient, the preferred pharmacies appear in the **Pharmacy** section of the **Onboarding Forms** page.

If a pharmacy is added to the **Pharmacy** section of the **Onboarding Forms** page in OnPatient, it appears in the patient chart in DrChrono as a preferred pharmacy.
