

Release Notes for DrChrono Web 2024-10-10

Last modified on 10/10/2024 9:15 am EDT

What's new

Clinical and Regulatory

Summary	Description	Knowledge Base Article
Electronic Clinical Quality Measures (2024)	Electronic Clinical Quality Measure updates for the 2024 MIPS reporting period are now available.	eCQMS 2024

Payments and RCM

Summary	Description	Knowledge Base Article
Updating details when reinitiating an enrollment with ePS	We have added the ability for a user to update details while reinitiating an ePS enrollment request.	eProvider Solutions- How do I resume a previously started enrollment request?

Resolutions

Product Area	Summary	Description	Knowledge Base Article
Payments and RCM	EDI Dashboard Showing "Unknown" Status	We fixed an issue where the EDI Dashboard displayed "unknown" under the status column. The column will display the current status of the enrollment.	eProvider Solutions- What do the different statuses mean?
Clinical and Regulatory	Collection date and time still showing on order requisitions after creating Labcorp PSC orders	A fix has been implemented where the Labcorp requisition will no longer show the collection date and time if the Patient Service Center/Central Order Repository is enabled.	

Product Area	Summary	Description	Knowledge Base Article
Practice Management	When the "SORT Offices by name" setting is enabled, the order of offices varied across different screens	A bug was identified when the Sort Offices by Name setting is Enabled, office order in calendar, office order in office dropdown in schedule appointment and office order in office dropdown under account settings is not matching with order present under Active offices page. To resolve this issue, we have added a check around if the sort_offices_by_name is enabled. If it is, the offices will be correctly sorted to match the across the application.	

Coming soon

Chart Optimization Enhancements

DrChrono is thrilled to announce upcoming features designed to streamline your workflow and enhance patient care!

Patient Header Redesign

Experience our new consolidated Patient Header that brings critical information to your fingertips. No more toggling between screens—access essential patient data seamlessly!

Customizable Patient Chart Header

Tailor your Patient Chart Header to display the information that matters most to you. Enjoy a personalized overview of essential details to boost efficiency in your daily tasks.

Patient Chart Summary

Gain valuable insights with our Patient Chart Summary. This feature provides a quick snapshot for providers and ancillary staff, ensuring you're informed before each visit.
