

Requesting Medicare Real Time Eligibility through ePS

Last modified on 12/12/2024 10:19 am EST

When requesting real-time eligibility (RTE) requests through ePS for Medicare, please use payer ID **MCELG**. This payer ID will return eligibility for traditional Medicare, Railroad Medicare, and Durable Medical Equipment (DME) payers. You do not need to enter each state's payer ID to request RTE information.

If you have already enrolled with any of the traditional Medicare, RR Medicare, or DMERC payer ID#, we will update your enrollment request with payer ID **MCELG**. There is no need to initiate enrollment again.

New Enrollment - Select Payers

Payer Name Payer ID Payer Type Transaction Type
