Last modified on 01/09/2025 8:50 am EST

What's new

Clinical and Regulatory

Summary	Description	Knowledge Base Article
Superbill Screen Enhancements	The following enhancements have been made to the superbill screen: • CPT/HCPCS section has been moved to the top of the right-hand column. • ICD10 has been moved to the top section of the left-hand column; ICD9 has been moved below. • Autosave has been modified.	
Copy Previous Note Update	The **Copy Previous Note** pop-up will display the exact names of forms as they appear in the H&P, SOAP, and Additional tabs within the clinical notes screen. By default, the forms in the Additional section will be listed in alphabetical order. Before After 	Copying a Previous Note on the iPhone Copying a Previous Note on the iPad Copying a Previous Note (Web)

Payments and RCM

Summary	Description	Knowledge Base Article

Summary	Description	Knowledge Base Article
Charge Lag Report	A Charge Lag report has been developed to give you insights into the time from the time of the appointment until the time charges are added, it is billed out, and when it is paid. You will be able to see the information by provider, office, payer, and date of service among other parameters. The report will be rolling out over the coming weeks.	Charge Lag Report

Resolutions

Product Area	Summary	Description
Clinical and Regulatory	(Clinical Form Management) Fraction Field Fix	A fix has been implemented to correct the issue where the default value of the fraction field under the clinical form management overlapped the popup modal.
Payments and RCM	Failed Stripe payments	We fixed an issue where failed/declined payments processed through Stripe were reflected in the patient payments screen as successfully processed.
Payments and RCM	Updating information in the Fee Schedule	We fixed an issue where the system returned an error when information for a particular code was updated.
Payments and RCM	Updating information in the ePS enrollment screen	We fixed an issue in the ePS enrollment screen that prevented users from updating the information listed.
Platform	Provider's video is available in full-screen mode during OnPatient telehealth visit	We fixed an issue where the provider's video wasn't visible in full-screen mode during an OnPatient telehealth visit. Both the provider's and the patient's videos are now available if they are turned on.
Practice Management	Recorded Provider Name loading improvements	We fixed an issue where the Recorded Provider Name did not load when you made a new recording. The Recorded Provider Name now loads and can be played.

Product Area	Summary	Description
Practice Management	Documents appear under Uploaded Documents in patient chart	We fixed an issue in the patient chart. When the All Documents tag was selected, no documents appeared in the Uploaded Documents section. All documents now appear under Uploaded Documents.
