Navigating the MIPS Dashboard (2025)

The MIPS Dashboard allows customers to track the MIPS Promoting Interoperability measure for the 2025 reporting period.
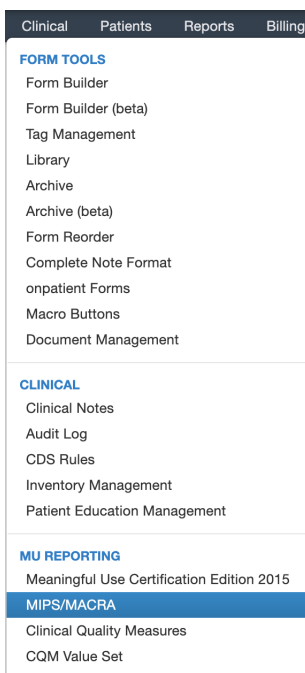

- The attestation reporting period is from the start of a year to the last day of the year (ex: 1/1/2025-12/31/25). Eligible Clinicians/Groups will **select a minimum 180-continguous day reporting period** for the MIPS Promoting Interoperability performance category.
- Current year reporting impacts payments two years out (ex: 2023 reporting, will impact 2025 payment adjustments.
- The MIPS Dashboard can support multiple TIN reporting. For more information on setting up multiple TIN's, see Adding Prescriber Information to an Office.

Updates for 2025 include:

- Reporting Period has been changed from 90 continuous days to 180 days. All MIPS reporting clinicians not eligible for a Promoting Interoperability re-weight must start their Promoting Interoperability performance category reporting period by July 4, 2025.

- Starting with the 2024 reporting period, customers must enable the DrChrono FHIR APIs. If your practice enabled these last year, no additional steps are necessary. If your practice has not enabled the FHIR API's, you must do so prior to starting your reporting period. Please see this article for the steps to complete the FHIR API setup. Setting Up ConnectEHR for FHIR

How to view the MIPS Dashboard in DrChrono

You can access your PI dashboard in your DrChrono account by going to Clinical > MIPS/MACRA

Select the date range, doctors, and offices (ex: 180-Day Period 2025).

Then click **Refresh**.
- The top portion of the dashboard contains information that the customer will use to provide to the Centers for Medicare/Medicaid Services (CMS).

MIPS Dashboard

DrChrono EHR v11.0

CHPL Product Number: **15.02.04.2897.DRCH.11.03.1.220531**

CMS EHR Certification ID: **0015E0PHQ1JGR1Q**

Track your progress on all criteria with our MIPS Dashboard. No matter where you are in your reporting period, you can easily check on your progress and determine what actions need to be taken to meet the requirements.

High Priority Practices Guide of the Safety Assurance Factors for EHR Resilience (SAFER) Guides ❔	PI_PPHI_2	Not Met	Claim Met		Required	0 / 0
Security Risk Analysis ❔	PI_PPHI_1	Not Met	Claim Met		Required	0 / 0

After logging into your Healthmonix MIPSpro account, select **Promoting Interoperability**.

Dashboard for DrChrono Test

Select **Data Entry** and then **Go To Page**.

Enter your date range for reporting and click **Update** next to each measure to enter the data. For each measure, you will need to enter the data or attest to the measure.

Quality Improvement Activities

For Quality and Improvement Activities scores, DrChrono has integrated with MIPSpro by Healthmonix to streamline reporting and expand the number of available quality measures.

For your 2025 MIPS Reporting submission, MIPSpro will pull relevant clinical data from your documentation and coding within your DrChrono account and provide a quality measure dashboard complete with insights and calculations for you to review and submit.

Within the MIPSpro dashboard, you can also attest to Improvement Activities that you completed during the 2025 MIPS Reporting year.

Please follow this link to get your MIPSpro account set up.

While DrChrono provides this report as a tool to assist with participation in MIPS, providers must still independently: (1) confirm that the underlying information was properly entered into DrChrono, (2) review all reporting information for its accuracy and applicability to their particular practice(s), and (3) retain documentation that supports the data reported for their participation in MIPS, as required by CMS retention policies.
