Getting started with MIPS (6 steps)

2025 MIPS Reporting Resources

The MIPS Dashboard allows customers to track the MIPS Promoting Interoperability measure for the 2025 reporting period.

Updates for 2025 include:

- Reporting Period has been changed from 90 continuous days to 180 days. All MIPS reporting clinicians not eligible for a Promoting Interoperability re-weight must start their Promoting Interoperability performance category reporting period by July 4, 2025.

- Starting with the 2024 reporting period, customers must enable the DrChrono FHIR APIs. If your practice enabled these last year, no additional steps are necessary. If your practice has not enabled the FHIR API's, you must do so prior to starting your reporting period. Please see this article for the steps to complete the FHIR API setup. Setting Up ConnectEHR for FHIR

Please note: DrChrono does not directly export MIPS data to CMS. A 3rd-party registry is needed. MIPS reporting is performed through our partner Healthmonix

Promoting Interoperability consists of several required objectives and an optional bonus.

The required measures based on 2025 Performance Year Promoting Interoperability Requirements:

- e-Prescribing
- e-Prescribing Including Controlled Prescriptions
- Query of Prescription Drug Monitoring Program (PDMP)
- Provide Patient Access
- Electronic Case Reporting
- Immunization Registry Reporting
- Clinical Data Registry Reporting
- Public Health Registry Reporting
- Syndromic Surveillance Reporting
- (2024) High Priority Practices Guide of the Safety Assurance Factors for EHR Resilience (SAFER) Guides
- Security Risk Analysis

Health Information Exchange

- HIE Option 1: Sending Health Information
- HIE Option 1: Receiving & Reconciling Health Information

OR

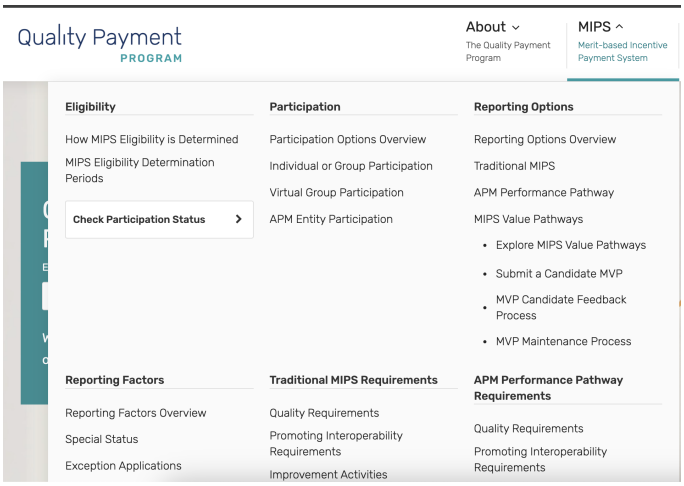
- HIE Option 2: Bi-Directional Exchange

OR

- HIE Option 3: Enabling Exchange Under the Trusted Exchange Framework and Common Agreement (TEFCA)

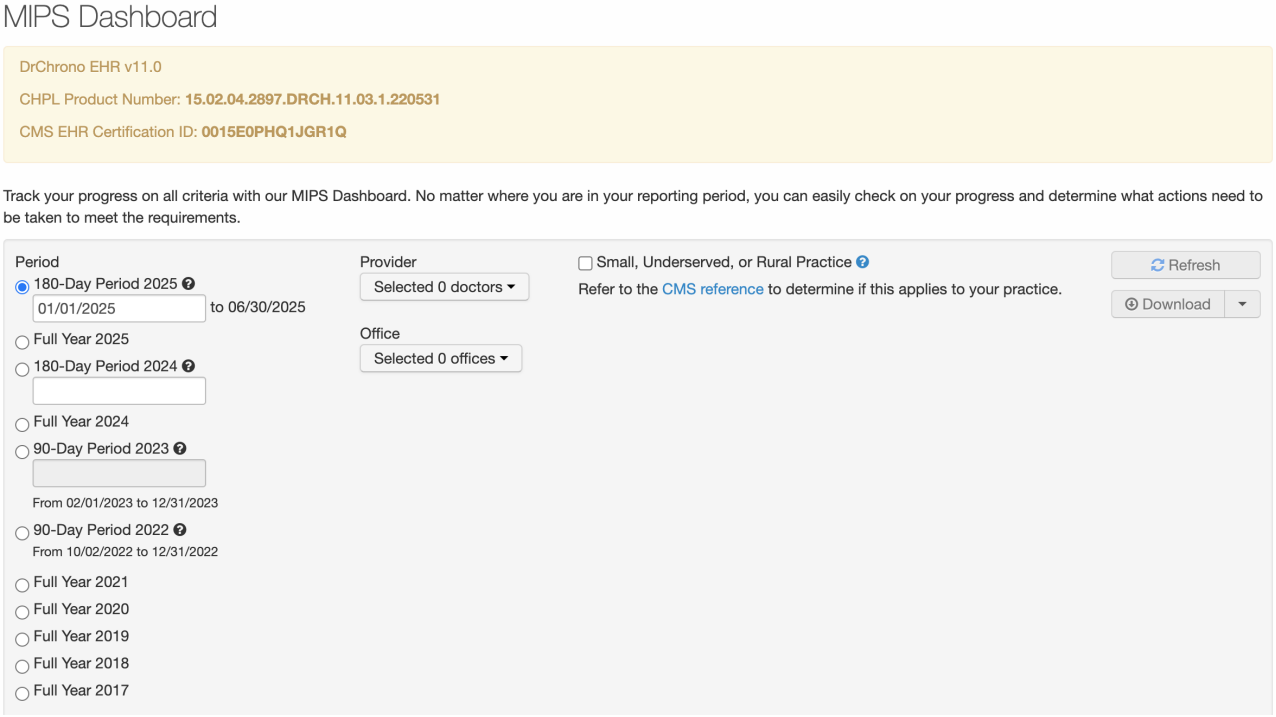
Visit the Quality Payment Program (QPP) site for more information about MIPS eligibility, participation reporting options, and more.

.



Navigating the MIPS Dashboard

- You can access your PI dashboard in your DrChrono account by going to Clinical > MIPS/MACRA
- Select the date range, doctors, and offices (ex: 180-Day Period 2025).
- Then click **Refresh**.



The table will populate with the data from your account. You can enter this data into your Healthmonix account.

Quality Improvement Activities

For Quality and Improvement Activities scores, DrChrono has integrated with MIPSpro by Healthmonix to streamline reporting and expand the number of available quality measures.

For your 2025 MIPS Reporting submission, MIPSpro will pull relevant clinical data from your documentation and coding within your DrChrono account and provide a quality measure dashboard complete with insights and calculations for you to review and submit.

Within the MIPSpro dashboard, you can also attest to Improvement Activities that you completed during the 2025 MIPS Reporting year.

Please follow this link to get your MIPSpro account set up.

While DrChrono provides this report as a tool to assist with participation in MIPS, providers must still independently: (1) confirm that the underlying information was properly entered into DrChrono, (2) review all reporting information for its accuracy and applicability to their particular practice(s), and (3) retain documentation that supports the data reported for their participation in MIPS, as required by CMS retention policies.

Additional information to know...

- The top portion of the dashboard contains information that the customer will use to provide to the Centers for Medicare/Medicaid Services (CMS).

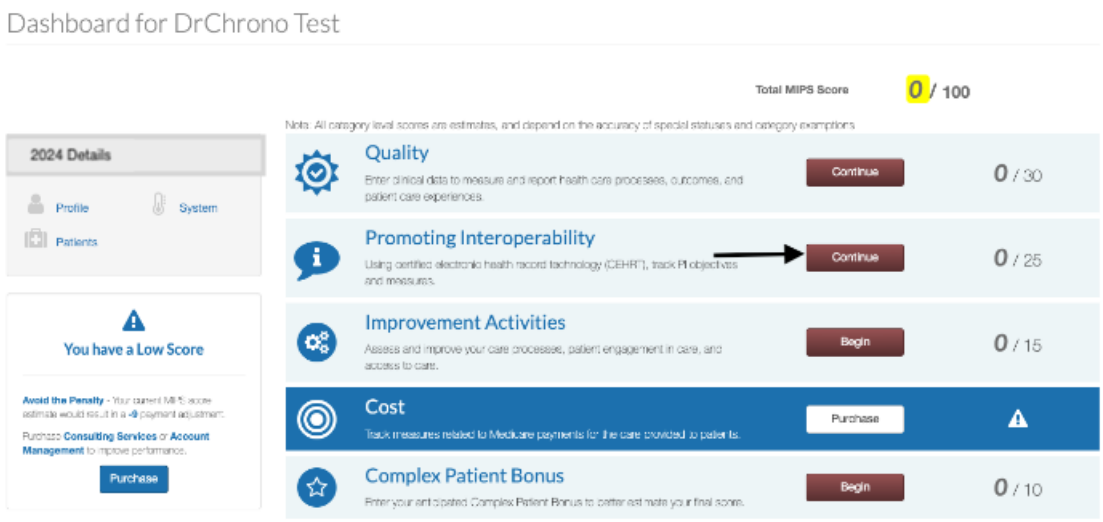
- The attestation reporting period is from the start of a year to the last day of the year (ex: 1/1/2025-

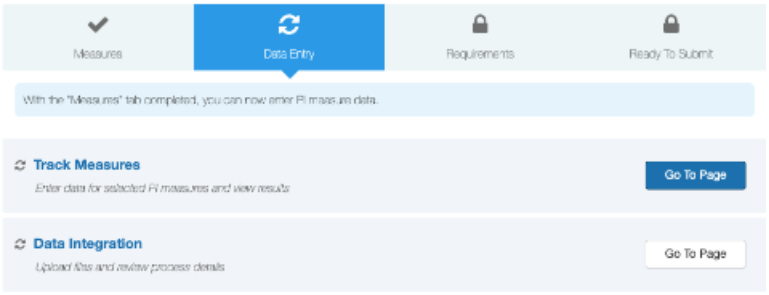
12/31/25).

- Current year reporting impacts payments two years out (ex: 2023 reporting, will impact 2025 payment adjustments.
- The MIPS Dashboard can support multiple 10 reporting, which is based on Adding Prescriber Information to an Office

After logging into your Healthmonix MIPSpro account, select **Promoting Interoperability**.



Select **Data Entry** and then **Go To Page**.



Enter your date range for reporting and click **Update** next to each measure to enter the data. For each measure, you will need to enter the data or attest to the measure.

PI Score

⚠ PI score will not be awarded and the component cannot be submitted until all required measures are complete.

PI Reporting Date Range

The reporting date range for PI must be within the 2023 reporting year. The default range is 1/1/2023-12/31/2023, but any 90 day or greater range within the year is valid for 2023.

The selected date range will be applied to all PI measures. The data entered for these measures should only fall within the following date range.

PI Start Date: 1/1/2023

PI End Date: 12/31/2023
