Utilization Analysis Report: Details Tab

Last modified on 11/10/2026 11:27 am EST

The Details tab on the Utilization Analysis Report will give you the details that match the parameters set on the Summary tab page.

Pressing the three horizontal dots in the top panel will expose options to schedule the report to run on a specific cadence, as well as display it in presentation mode.

Pressing the three horizontal dots in the top right of the Details pane will expose options to show the underlying data, download the report, or display it in presentation mode.
