

Insurance Payer Mix: Graph tab

Last modified on 03/12/2025 8:50 am EDT

The Graph tab on the Insurance Payer Mix Report displays the information specified on the summary tab in graph form. The graph on the left shows Average payments over time by patients and insurance payers. The graph on the right shows payments by insurance, showing the total paid.

Hovering in the right corner of the Avg. Payments over Time graph (on left), will expose additional options.

The diagonal arrows will maximize the screen while the three vertical dots will allow the user to view summary data, export to CSV, or enter a forecast.
