Print Patient Demographics View Patient Face Sheet

DrChrono providers the ability to print a snapshot of specific health information such as demographics via the web and/or a face sheet via the mobile EHR application.

Print Patient Demographics (web)

Navigate to the patient chart.

Click the "print demographics" icon.

Test Patient Missing Sex Gender Identity Unknown 45 years old (08/08/1979) PATE000001	Frint demographics	Collapse
Provider K Parker, MD Address Test Phone Missing Email Test@test.test OnPatient Not Enabled-Invite Date Added 06/10/2019 Prev Appt <u>08/01/2019</u> Next Appt None		
Patient must have documented allergies Adult Immunization Schedule Age: 27-49 R Peanut Allergy		

A preview window will display to print or cancel.

The patient information provided is extracted from the designated tab in each section of the patient chart.

- primary provider
- patient demographics
- primary, secondary, and tertiary insurance
- worker's compensation
- custom demographics
- auto accident insurance
- durable medical equipment

The medication and allergy lists are not included, but can be printed separately from the medication and allergy tab.

Face Sheet (Mobile EHR Application)

The face sheet provides a snapshot view of the following patient health information which is extracted from the designated tab in each section of the patient chart.

- conditions
- allergies
- lab results
- family history
- patient demographic notes
- medications
- recent vitals

View patient face sheet

Tap the patient name from the appointment list or manually search **Q** .

Once the patient displays on the main screen, tap the patient name to display the drop down menu.

Tap Face Sheet.
