

# DrChrono Roadmap Portal

Last modified on 03/06/2026 8:51 pm EST

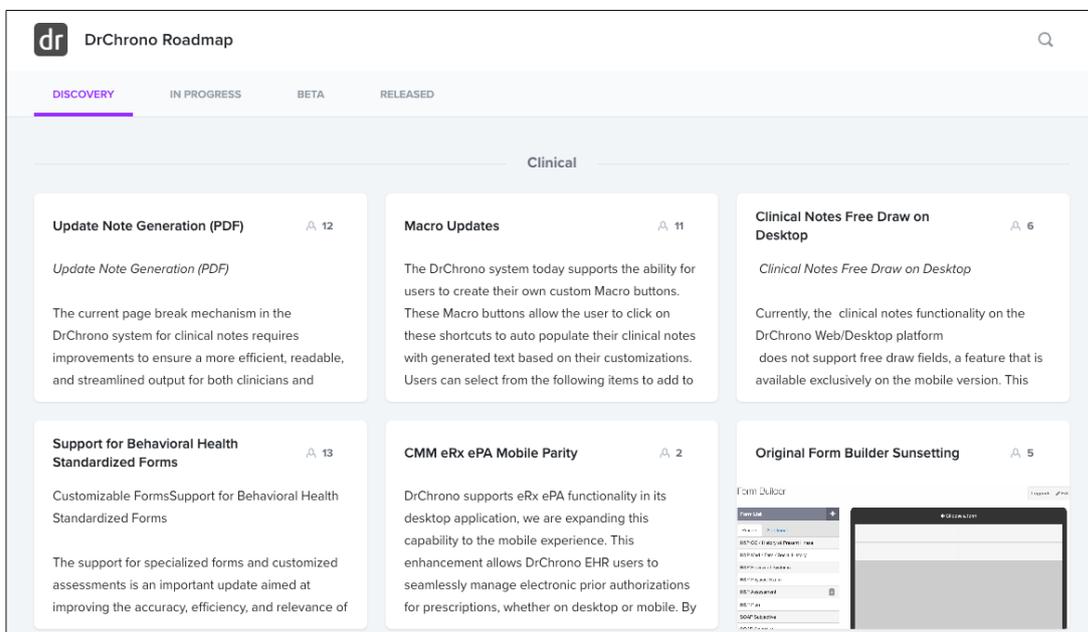

[Go to the roadmap portal](#) | [Provide feature feedback](#) | [Become a product discovery partner](#) | [Become a feature beta partner](#)

Use the DrChrono roadmap portal to preview new features and upcoming enhancements. [Provide feedback](#) by letting the Product Development team know your interest or need for the feature, and whether you want to become a [product discovery](#) or [feature beta partner](#).

## Go to the roadmap portal

1. Select **Account > Portal**.

The **DrChrono Roadmap** opens.

2. Do one of the following:

- Select a tab to see which features are in discovery, in progress, in beta, or released status.
- Select a portal card to read a feature description and access a knowledge base article or other resources for further information.

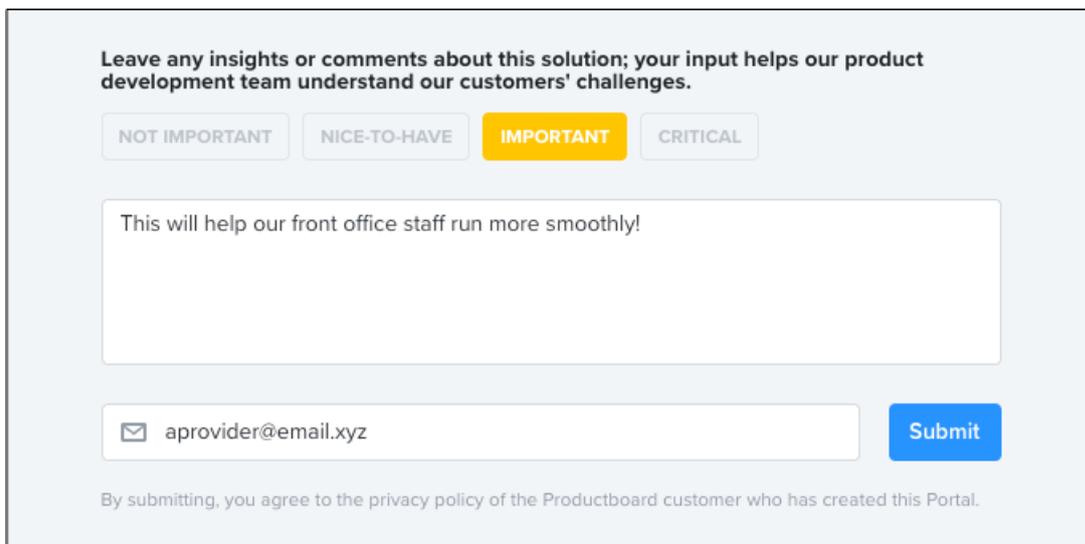

## Portal card statuses

Status	Description
Discovery	The feature idea is being investigated and reviewed to determine what actions can be taken and if it should be worked on.
In progress	The Product Development team is developing this feature.
Beta	The feature has been released to beta customers to see how they interact with it, if they use the correct workflow, and to identify any potential bugs for mass release.
Released	The feature has been released to all users and is live in production.

## Provide feature feedback

You can provide feedback about a feature to the Product Development team.

1. Select a portal card and scroll to the bottom of the card.
2. Select your level of interest or need for this feature.
3. Enter comments or feedback on this feature, enter your email address, and then select **Submit**.

Leave any insights or comments about this solution; your input helps our product development team understand our customers' challenges.

NOT IMPORTANT NICE-TO-HAVE **IMPORTANT** CRITICAL

This will help our front office staff run more smoothly!

✉ aprovider@email.xyz **Submit**

By submitting, you agree to the privacy policy of the Productboard customer who has created this Portal.

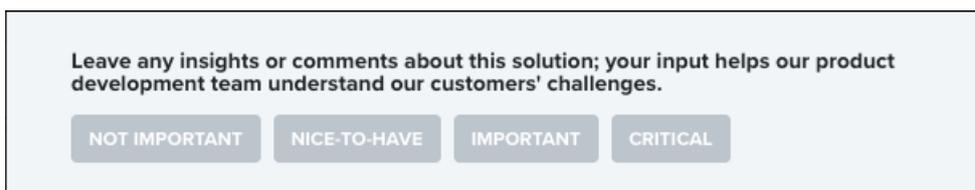

## Become a product discovery partner

As a product discovery partner, you work closely with the DrChrono Product Development team at the earliest stages of development to help shape new ideas before they become features.

- Get early exposure to concepts, prototypes, and in-progress web and mobile experiences
- Share insights on workflows, usability, and real-world needs from a healthcare provider's perspective
- Help validate problems worth solving and guide solution design
- Identify gaps, risks, and opportunities before development is finalized
- Influence product direction and ensure solutions truly support providers like you

## Ask to become a product discovery partner in the portal card

1. Select a portal card and scroll to the bottom of the card.
2. Select your level of interest or need for this feature.

Leave any insights or comments about this solution; your input helps our product development team understand our customers' challenges.

NOT IMPORTANT NICE-TO-HAVE IMPORTANT CRITICAL

3. Enter a comment expressing interest in becoming a product discovery partner, enter your email address, and then select **Submit**.

## Become a feature beta partner

As a beta partner, you collaborate with the DrChrono Product Development team to test and evaluate pre-release versions of new software features before they're widely available.

- Get early access to new features and improvements in DrChrono web and mobile products
- Provide valuable feedback on functionality, usability, and performance
- Help identify potential bugs or issues in real-world usage scenarios
- Contribute directly to product improvements based on your practical experience
- Ensure new features meet the needs of healthcare providers like you

## Ask to become a feature beta partner in the portal card

1. Select a portal card and scroll to the bottom of the card.
2. Select your level of interest or need for this feature.

**Leave any insights or comments about this solution; your input helps our product development team understand our customers' challenges.**

3. Enter a comment expressing interest in becoming a beta partner, enter your email address, and then select **Submit**.
