

103K Medicare Beneficiaries issues new ID numbers

Last modified on 07/02/2025 9:42 am EDT

July 2025

According to an article from Health Exec, 103K Medicare Beneficiaries will be issued new ID numbers after accounts were created without the beneficiaries' knowledge or consent.

The agency [CMS] announced on Monday [June 30, 2025] that it had begun notifying the approximately 103,000 people linked to suspicious account activity. It also said it's deactivating the illegitimate accounts, as it works with a third party to investigate the situation. ~ Source
