Claim by Claim Status Widget

The claim-by-claim status widget on your dashboard will show claims with their current status. There are two ways you can quickly and easily see which claims make up that particular status. To enable this widget:

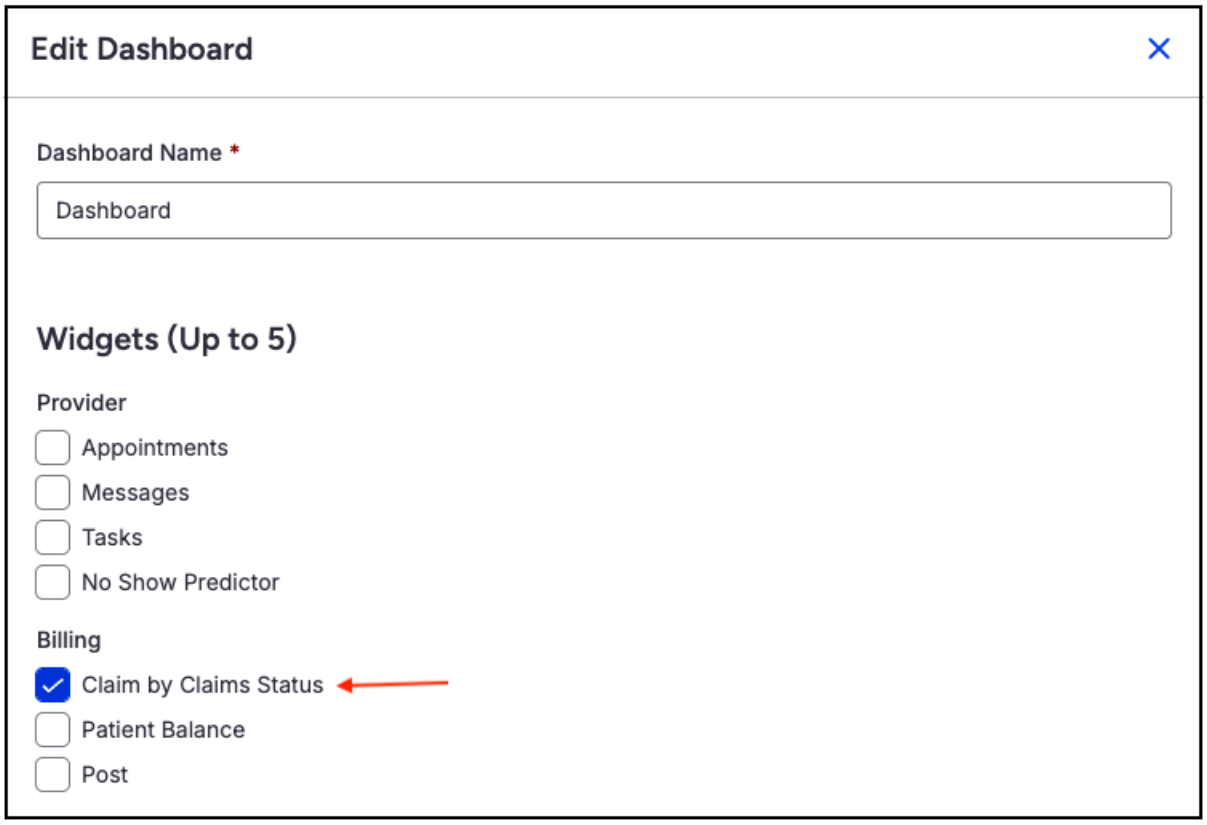

1. Press the gear icon on your dashboard **(Schedule > Dashboard)**.

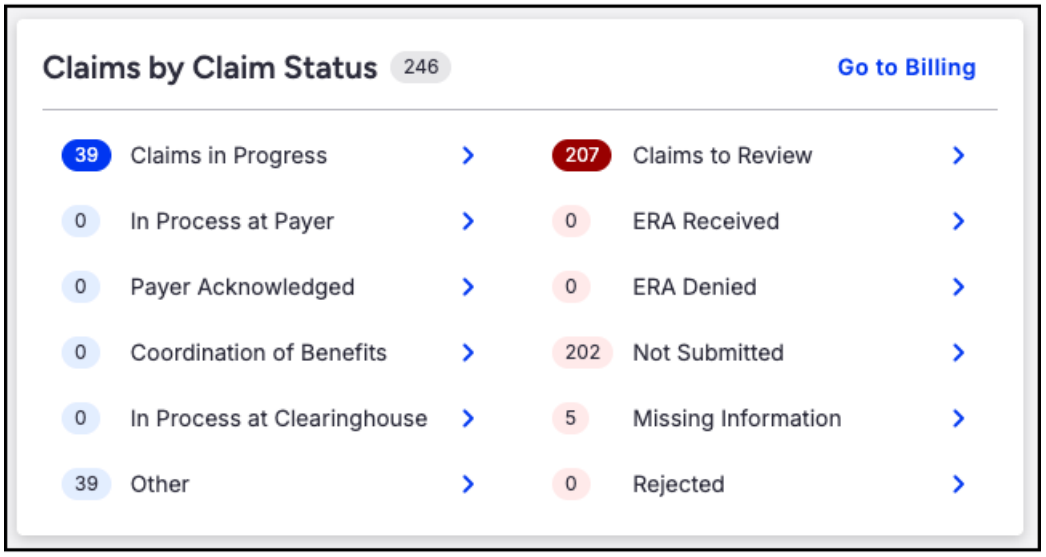

2. Select the **Edit** pencil.

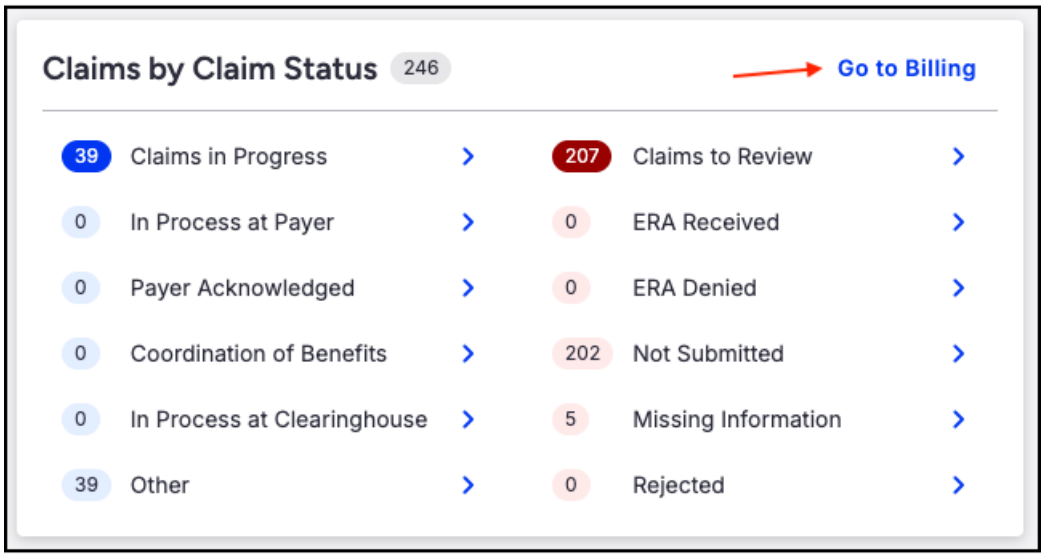

3. Select the Claim by Claims Status widget by checking the box to the left of the name.

4. On the Claims by Claim Status widget, you can see your total number of claims and their current status.

5. Pressing on the Go to Billing words on the top right will take you to the Live Claims Feed. Pressing on any of the right-facing arrows on each row will take you to the Live Claims Feed and show you the claims that are in that status.
