

# DrChrono EHR Version 11.1.6 - October 2, 2025

Last modified on 10/02/2025 10:05 am EDT

## Resolutions

### iOS version 26

The application has been updated to support the latest iOS version 26 release.

### Health Gorilla Print Functionality

We've fixed an issue with printing Health Gorilla lab orders in the iOS app. Now, when submitting an order in the Health Gorilla app, users can send the requisition to print directly from the final submission screen—just like on the web—by checking the **Print Requisition Form** box.
