Overview

EverHealth Scribe by CarePilot is an AI-powered documentation tool that works alongside your DrChrono system. It listens to your patient conversations and automatically creates clinical notes, saving you time and letting you focus on patient care instead of paperwork. This article will walk you through installing the Chrome extension.

Before You Begin

Before installing EverHealth Scribe, ensure you have:
- Google Chrome web browser installed on your computer
- An active DrChrono account with login credentials

Installing the Chrome Extension
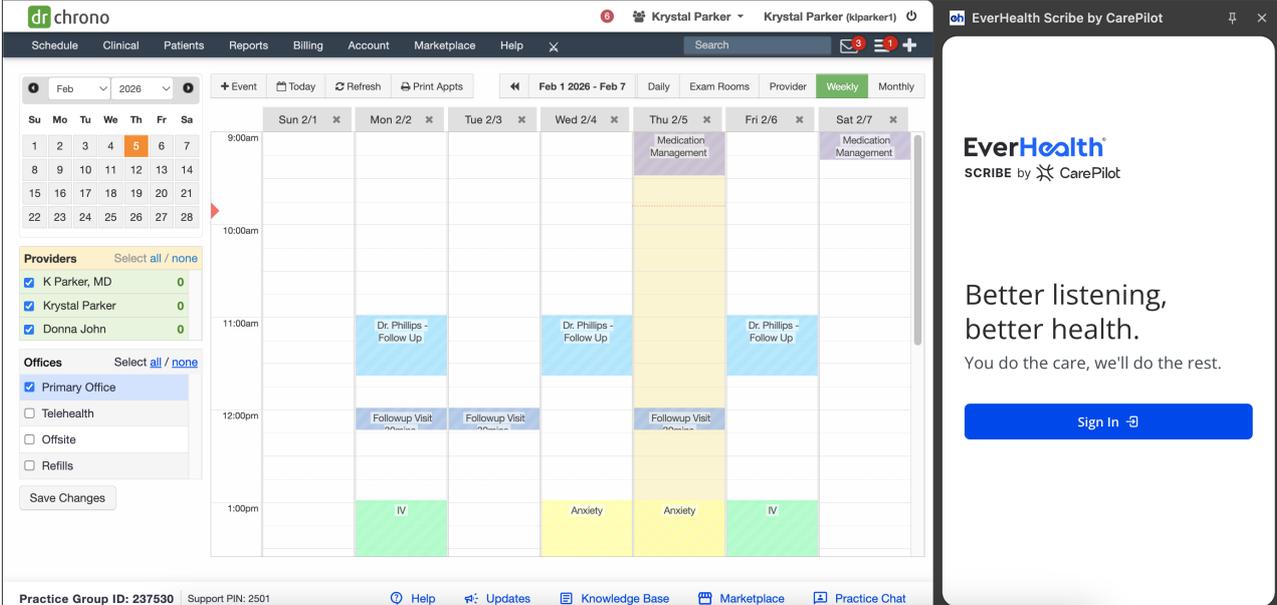

Step 1: Download from Chrome Web Store

1. Open Google Chrome and navigate to the Chrome Web Store

2. Search for **"EverHealth Scribe by CarePilot"**

3. Click **"Add to Chrome"** to install the extension

Step 2: Locate the Extension

Once installed, you will see the EverHealth Scribe icon in your browser's top-right toolbar.

If you don't see it immediately, click the puzzle piece icon to view all extensions and pin EverHealth Scribe for easy access.

First-Time Setup and Activation

Activating Your Account

> ⓘ   This activation process only needs to be completed once per device.

1. Navigate to DrChrono and launch the EverHealth app

2. Click **"Sign In"** when prompted

3. Check your email for a one-time verification code

4. Enter the code and select **"Remember this device"** to avoid future prompts

5. Click **"Continue"** to complete activation using Single Sign-On (SSO)
