The screenshot shows the DrChrono software interface. On the left, a sidebar lists various clinical and administrative sections: Schedule, Clinical, Patients, Reports, Billing, Account, Marketplace, and Help. The 'Patients' section is active, showing a patient profile for 'Arvilla D'Amore' (59 yo, Female, BRCH000001). The main content area is divided into 'Patient Chart' and 'Patient Summary'. The 'Patient Summary' section contains tabs for 'Problems' (9 items), 'Medications' (5 items), and 'Locked Notes' (2 items). The 'Problems' list includes: 'Altered mental status, unspecified' (ICD-10: R41.82), 'Pregnancy' (ICD-10: Z33.1), 'Light cigarette smoker (1-9 cigs/day)' (ICD-10: F77.20), 'Perimenopausal disorder (disorder)' (ICD-10: N95.9), 'Brittle asthma (disorder)' (ICD-10: J45.901), 'Obstructive emphysema (disorder)' (ICD-10: J43.9), 'Fibromyalgia (disorder)' (ICD-10: M79.7), and 'Generalized anxiety disorder (disorder)' (ICD-10: F41.1). The 'Medications' list includes: 'Celexa 10 mg oral tablet' (Unknown), 'Advair diskus 250 mcg-50 mcg inhalation powder' (Unknown), 'Protonix 40 mg oral delayed release tablet' (Unknown), 'Calcium (as carbonate)-vitamin d 500 mg-10 mcg (400 intl units)' (Unknown), and 'Celebreze vitamin d3 quick-melt 5000 intl units oral tablet, disinte...' (Unknown). The 'Locked Notes' list shows: 'Visit reason unknown' (Appt. 05/31/2024, Locked by: Sarah El-Ali) and 'Visit reason unknown'. On the right, a recording interface for 'Arvilla D'Amore' is shown with a timestamp of '00:02'. It includes buttons for 'Pause', 'End Scribe', and 'Restart'.

## Preparing for a Visit

- Access Your Calendar
  - After signing in, Scribe will display your calendar view. When you create a new calendar entry in DrChrono, click "Refresh Schedule" in EverHealth Scribe. The system may take a few moments to sync with Dr.Chrono.
- Enable Microphone Access
  - When starting your first visit, Chrome will ask for permission to use your microphone. Select "Allow while visiting this site" to avoid being prompted repeatedly. You can also select your preferred microphone if you have multiple audio input devices.
- Select Documentation Template
  - Choose the appropriate template for your visit type (e.g., H&P note, follow-up visit, etc.). This determines how the AI-generated content will be formatted in DrChrono

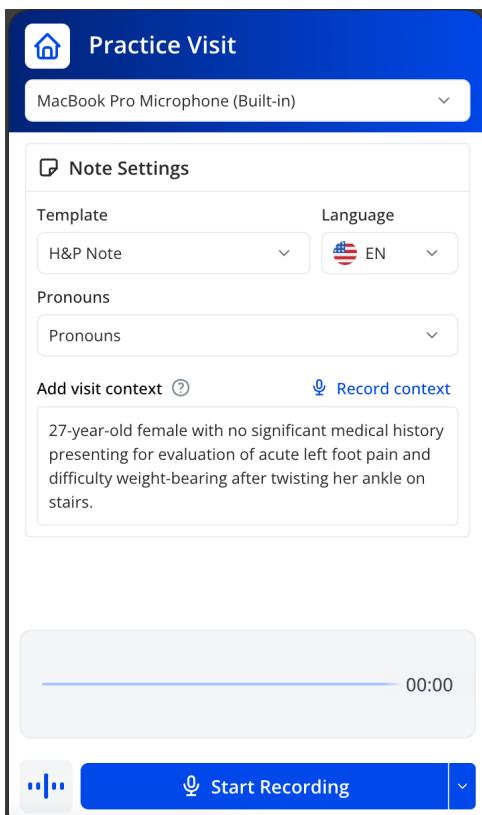

## Recording a Patient Visit

### Starting the Scribe

To return to the calendar click the home icon (top left corner) in the Scribe window.

1.

Click on the patient's name in your calendar to open their visit

2. (Optional) Add visit context by typing or recording. For example: "Patient is reporting pain in her right pinky toe"
3. Click "Start Recording"
4. A prompt will appear asking you to obtain patient permission. Dismiss the alert when ready
5. Conduct your visit normally Scribe will run in the background, transcribing the conversation

Example visit conversation:

- **Provider:** "Chrissy Bright, how is your pain?"
- **Patient:** "Oh doctor, I'm really in pain and my right pinky toe hurts."
- **Provider:** "I see that you have some bruising on your right toe. What would you rate this pain?"
- **Patient:** "I would rate it as a 7."
- **Provider:** "We're going to prescribe you 50 mg of ibuprofen. I encourage you to ice it and keep your foot elevated."

## **Pausing or Ending the Visit**

- Click "**Pause**" to temporarily stop the recording and "**Resume**" to continue
- When the visit is complete, click "**End Scribe**". The system will take a few moments to process the recording and generate your clinical note.
