

Resolutions - August (Web)

Last modified on 08/21/2026 12:35 pm EDT

This page is a complete list of bug fixes shipped in the August 2026 release, organized by product area. For new features and enhancements, see the [August 2026 Release Notes](#).

Billing & Revenue Cycle

- **Square card payments:** Fixed an issue where the Square card entry fields failed to display when adding a patient payment, which blocked card details from being entered.
- **Billing status:** Resolved a problem that prevented the billing status from being changed from Balance Due to Ready for Statement — the status now saves and stays updated.

Practice Operations

- **Tasks:** Resolved a problem where updating or archiving a task would intermittently fail, showing a loading error and leaving the task status unchanged.
- **Appointment templates:** Fixed an issue where appointment templates were missing from the Exam Room view when creating an appointment.
