

# Billing Statements: Current and Previous

Last modified on 09/14/2026 12:57 pm EDT

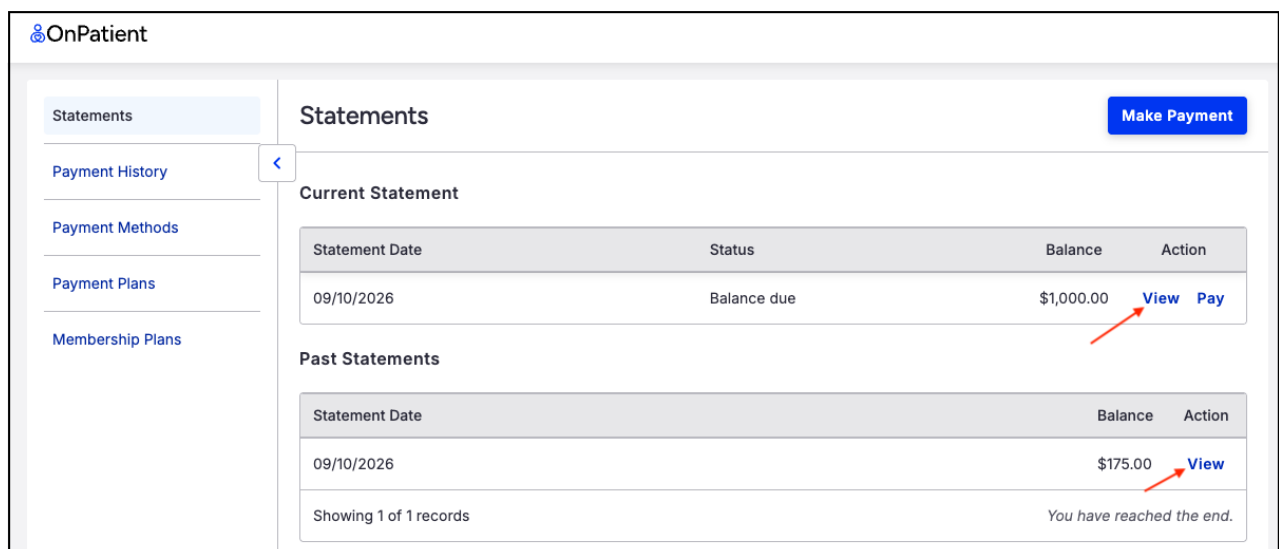

OnPatient provides patients with an easy way to receive and view their patient statements.

When signed in to the OnPatient portal, select either the Billing tab from the left menu or the Recent Bill tile on the homepage if there is a current statement.

## Left Menu Billing Option

Under the Statement tab, current statements will appear at the top, with options to view the statement and to pay online. Previous statements can be found in the section at the bottom. A current or past statement can be downloaded or printed from the view screen.

## Recent Bill Tile on the Homepage
