Resolutions - October (Mobile)

Last modified on 11/16/2026 12:10 pm EST

This page is a complete list of bug fixes shipped in the October 2026 mobile release, organized by product area. For new features and enhancements, see the October 2026 Mobile App Release Notes.

Practice Operations

- **Tasks:** Fixed an issue where the **View Document** button on a task didn't open the attached document in the EHR app.

This changelog reflects bug fixes only. For new features and enhancements, see the October 2026 Mobile App Release Notes.
